

NOTICE FOR INTRA MODEL UNITED NATIONS 2024

La Martiniere Model United Society is organising its Summer Edition of the Intra Model United Nations on the 19th and 20th of April, 2024. We at LMUN hope to maintain the tradition of an academically centred and intellectually enriching experience for all the delegates.

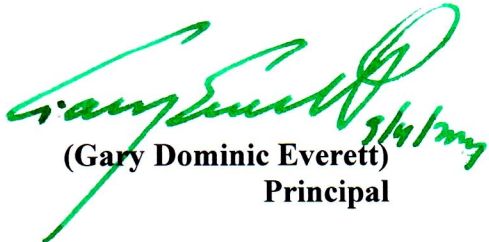

Model United Nations offers invaluable opportunities for personal and intellectual growth. Through MUN simulations, students develop leadership skills by embodying the roles of delegates and engaging in diplomacy and negotiation. Extensive research on diverse global issues enhances critical thinking abilities, while debates and speeches refine communication skills. Moreover, MUN fosters a deeper understanding of global affairs. We aspire to hone delegates with the potential to become exceptional diplomats and the leaders of tomorrow. We strive to provide an environment which encourages critical thinking, debate, deliberation, negotiation and discussion centered on the intricate web of international diplomacy.

As students immerse themselves in these simulations, they cultivate confidence and assertiveness, preparing them to tackle real-world challenges. In essence, MUN empowers students to become informed, engaged citizens equipped to address the complexities of our interconnected world.

All pupils from Class 7 onwards are encouraged to participate.
